The first edition of the International Prize of Mother Teresa of Calcutta "Hymn to Life", Nausika Spahia, Consul General of the Republic of Albania, with Riccardo Coccianti

"Gracias a la vida" this song came to mind when I listened to the words of enlightened people, awarded for his great work of the heart and of the human brain in the name of life. An award established in honor of the great woman, who left in memory of his great humanity sign, Mother Teresa of Calcutta. For me it was great honor to be invited among others in the event full of people of excellent talents. Italy recognized throughout the world as a country of great culture. For me it is indisputable fact. And thank God that there are still people who work in Italy, do not escape abroad to earn money, but earn a good name in the hearts of his people.
